

CLEAN TOP OFF

Modernizing Aviation Fuel Logistics.

Data-driven optimization, digital fee auditing,
and smarter FBO guidance.

DON'T JUST TOP OFF. OPTIMIZE.

Too Many Variables. Not Enough Time.

Finding the optimal route takes hours you should be spending on flying, not fuel logistics.
Opaque pricing and hidden fees drain capital while you manage the friction.

A Smarter Approach to Jet Fuel.

We act as your specialized data and logistics engine.
A dedicated team of aviation fuel experts does
the heavy lifting for you.

We extract maximum value from every
gallon so you can focus on the mission.

Same Operations. A Smarter Outcome.

We don't change the way you fly. We just make it more efficient.

No Changes to Your Providers

Keep your existing, trusted fuel suppliers.

No Changes to Your FBOs

Continue fueling at the same preferred locations.

No Changes to Your Payment Methods

Use the exact same cards and processes.

Operating Behind the Scenes.

Your Flight Department

Focus on Flying

Land at Preferred FBO

Pay as Usual

Clean Top Off Engine

Pre-flight Route Analysis & FBO Negotiation

Active Fee Auditing

Backend Rewards Capture

Pillar 1: Algorithmic Fuel & Logistics Optimization

Directly negotiated fuel pricing across our network.

Flight-by-flight operations analysis.

Complex tankering analysis to identify exact savings opportunities on regular routes.

Pillar 2: Digital Fee Auditing & FBO Guidance.

The FBO Anatomy

Pillar 3: Reseller Rewards Maximization.

Capturing the value left on the table.

- Seamless optimization of rewards and incentives across all eligible jet fuel resellers.

- Consolidation of tiered rewards to ensure you capture every point and rebate available.

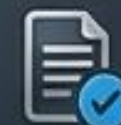

- Requires zero active management from your flight crew.

Measurable Savings. Total Transparency.

Savings Reports

Clearly track exact savings and optimization results monthly.

Market Insights

Leverage current fuel market intelligence to validate pricing.

Expert Support

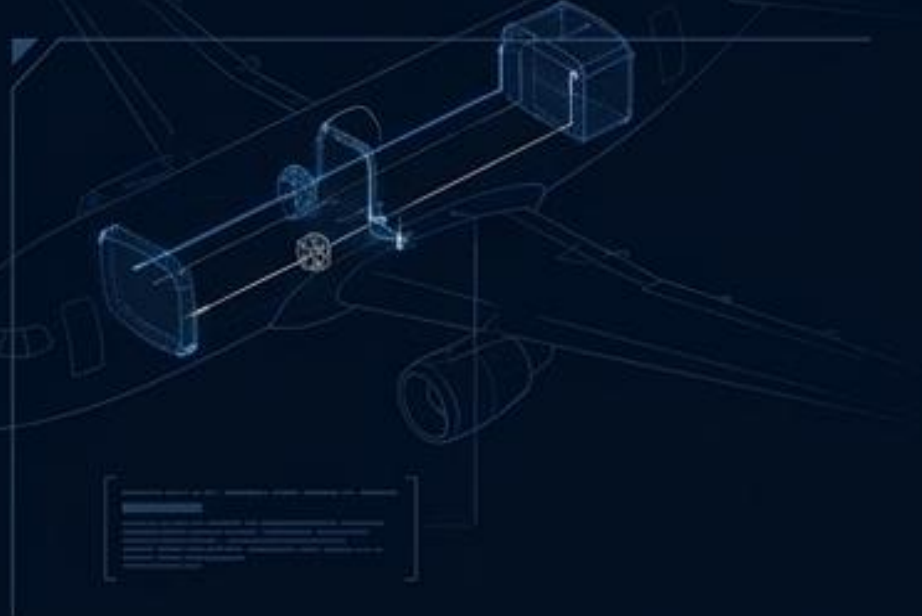

Direct, immediate access to our aviation fuel experts.

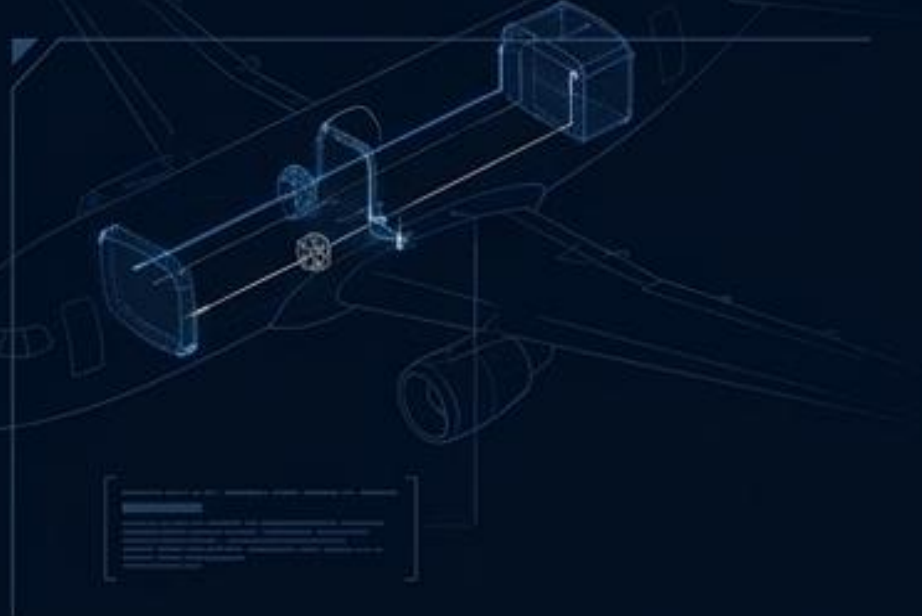

Optimization Meetings

Regular strategy alignments to refine your tailored savings plan.

Don't Just Top Off. Optimize.

$$\left[\begin{array}{c} \text{Your} \\ \text{Existing} \\ \text{Providers} \end{array} \right] + \left[\begin{array}{c} \text{Your} \\ \text{Existing} \\ \text{Routes} \end{array} \right] + \left[\begin{array}{c} \text{Clean} \\ \text{Top Off} \\ \text{Intelligence} \end{array} \right] = \text{Maximum Yield} \\ \text{Per Gallon}$$

Transforming aviation fuel from a fixed operational burden
into an actively managed financial asset.

Simple Steps. Real Results.

Get a Free Assessment

Tell us about your aircraft and operation. It's quick, free, and no commitment.

Identify Savings and Optimizations

We analyze your fuel spend, pricing, rewards, fees, and operational opportunities.

Get a Customized Plan

We deliver clear recommendations to help you capture more value.

See Real Results

You keep your existing providers and payment methods while we help you save and optimize.

Scalable Intelligence for Any Fleet

LIGHT

FUEL OPTIMIZATION ESSENTIALS

\$75 / month per tail

\$750 / year per tail — **Save \$150 annually**

- ✓ Negotiated fuel pricing
- ✓ FBO guidance
- ✓ Fuel market insights
- ✓ Personalized support
- ✓ Monthly savings report
- ✓ Monthly optimization meeting
- ✓ Reseller Rewards Optimization

MOST POPULAR

PRO

COMPLETE FUEL OPTIMIZATION

\$150 / month per tail

\$1,200 / year per tail — **Save \$600 annually**

Includes everything in Light, **PLUS:**

- ✓ Unlimited optimization meetings
- ✓ Flight-by-flight operations analysis
- ✓ Trip-specific fuel optimization
- ✓ Tankering analysis
- ✓ FBO/fuel-stop comparison

Make Every Gallon Work Harder.

Tell us about your operation and we'll identify exactly where Clean Top Off can create value for your flight department.
